

User Guide:

How to Find Product Information

How to find product information

Search for the product you wish to purchase using one of the methods outlined in the 'Storefront Navigation' user guide. Once you have landed on the product page you will find all the information associated with the selected product.

All pictures, its name, its brand, a short description, stock status, the option to add this product to your cart or your favorite list. Below the first section of the product page you can see a complete description of the product, our recommendations on how to use the product, and the ingredients in the product. On some products, you will also see a selection of associated products your customers may also like.
